7 Key Nutrients

(Co-factors)

In addition to the Seven Wonders of Natural Health as its primary active ingredients, Vitality FX Essential liquid is formulated with synergistic co-factors that work together to ensure overall product performance and effectiveness.

L-CARNITINE – a protein building block, is a necessary ingredient for optimal health. This key-nutrient's prime function is to burn fat, thus creating metabolic energy. It also helps burn carbohydrates, control levels of brain transmitters, and scavenge free radicals. Sports performance, body weight balance, immune function, and heart health all improve with this super-nutrient.

UVA URSI EXTRACT – promotes excretion of fluids, fights bacteria, and strengthens heart muscle.

STEVIA LEAF EXTRACT – a super-sweet, low-calorie dietary supplement that helps regulate blood sugar and supports the pancreas.

VITAMIN B3 (NIACIN) – important in energy metabolism. Niacin can reduce lipids in your blood, including lowering low-density lipoprotein (LDL) cholesterol (the “bad” cholesterol) and triglycerides, and raising high-density lipoprotein (HDL) cholesterol (the “Good” cholesterol).

VITAMIN C – important in forming collagen, a protein that gives structure to bones, cartilage, muscle and blood vessels. Also, helps maintain capillaries, bones, and teeth, and aids in the absorption of iron.

VITAMIN B6 – needed for more than 100 enzymes involved in protein metabolism. It is also essential for red blood cell metabolism. The nervous and immune systems need vitamin B6 to function efficiently, and it is also needed for the conversion of tryptophan (an amino acid) to niacin.

INOSITOL – is a fundamental ingredient of cell membranes and is necessary for proper function of nerves, brain, and muscles in the body.

Real People Real Results

Dr. Laura Precourt D.C – in over 10 years of practice working with thousands of patients, I have never before seen a formula that is so complete and effective. It's simple to take, great tasting, and it penetrates the cells instantly, requiring no digestion.

Vitality Liquid Essential is by far my favorite product because it can benefit everyone from children to senior citizens and everyone in between. We can all realize immediate and profound health and wellness benefits safely and naturally !

I give it to all of my patients and they love it and get great results!!!!

Wayne and Shelly and Shae Campbell – we've been using this excellent formula for so many years and we love complete liquid nutrition, and now we would never be without it. It's so quick and easy!

It taste great, and has replaced so many bottles of vitamins and nutrients that we were taking everyday. It supplies so many more nutrients and really make us feel great!!!

Besides the phenomenal health benefits, it's a great value as well. Using it has cut our nutrition costs by over 75%. "WOW" is the only word we use to describe Vitality FX

Georgia Bessett– "I had been suffering for 2 years with vertigo an had started waking several mornings a week with my arm asleep and tingling. When I was introduced to VITALITY FX Essential Liquid a few weeks later my symptoms were gone, my digestion improved, energy level skyrocketed , sleep improved and hair loss stopped.

After being diagnosed with high blood pressure, my doctor put me on prescription drugs that caused terrible side effects I didn't like. But after being on this product for 2 years, I got the good news my blood pressure is now in normal range without medication. My doctor was so impressed with the ingredients when I showed him what I was taking, he said "he thought he should be taking this product himself!" I have been on Vitality Essential for over 9 years now

Rich Buquet – I never suffered from allergies until 1996. At that time, I had a persistent, recurring sinus infection which lasted seven months. The infection was eventually successfully treated by prescription anti-histamines. But to stay symptom free, I had to continue using the medicine for over six years. Finally, I stopped the antihistamines cold turkey, and replaced them with a regimen of large doses of water with lemon juice and nutritional supplements. This worked fairly well, but I would still have the occasional headache or seasonal sinus infection.

I was introduced to VITALITY FX Liquid Essential. I stopped taking all of the other nutritional supplements, and began to only take Vitality FX Liquid Essentials while continuing with the water regimen. Initially, I noticed that I was feeling more energetic, but more importantly my allergy symptoms were recurring less often and my entire family uses it, loves it and has realized amazing benefits from it.

Nancy Alcorn – I travel all over the world in my professional career, and VITALITY FX Liquid Essential is the one supplement that I would never ever leave home without. I have been taken it every day for over 5 years, and I have experienced unparalleled health benefits. Not only has it greatly increased my energy level, it has also helped me keep my weight under control. My personal nutritionist told me that Vitality FX Liquid Essential is the best nutritional product he has ever come across, and he recommends it to all of his patients as well.

I love it because it's simple and convenient.

Vitality Fx Liquid Essential has replaced many, many bottles of pills, tablets and capsules. The effects are cumulative for me. The longer I take Vitality FX Liquid Essential the better I feel.

Zane Aveton – Vitality FX Essential liquid has been a Godsend to our lives – from friends to family, we have all seen dramatic and positive changes in our health and physical appearances. I have experienced improvements from my skin to my digestion, as well as a total appearance of my insufferable year round allergies. My father was losing his five year battle with Parkinson's disease and everyday normal functions like preparing food, eating and shaving were becoming not only impossible but dangerous. After 60 days on VITALITY FX ESSENTIAL liquid his strength, stamina and appetite returned. After 6 months he experienced increased dexterity and mobility and he was walking capably again. Now after 2 years

he lives alone and takes care of himself. This formula has empowered his body to fight this degenerative disease and has positively impacted the quality of his life.

How should I take Vitality Fx Liquid Essential?

The recommended amount is one tablespoon twice daily for the first month. This is a loading dose, then you may adjust to 1 tablespoon per day as it indicates on the label, however, many people drink much higher doses and they experience incredible benefits. You can never get too much nutrition. If you have specific health challenges, and require extra nutrients, you can take up to 4 or 8 tablespoons per day.

The optimum way to take Vitality Fx Liquid Essential is on an empty stomach for maximum bio-availability or absorption. We recommend first thing in the morning with 8 to 12 ounces of purified water and at night before you go to bed with an additional 8 to 12 ounces of purified water as indicated. Now, if you don't have an empty stomach it's okay to take it anyway. Always take Vitality Fx Liquid Essential with fresh purified water. Many people take the formula in the water. Many love the taste and take it straight and then drink the water afterward.

We recommend you refrigerate after opening. Always keep out of direct sunlight and away from temperatures above 95 degrees. The shelf life of Vitality Fx Liquid Essential is two years.

Vitality Fx Liquid Essential is a fully functional whole food concentrate that is generally safe to take with medications. We always recommend that you check with your health care professionals before starting any health & wellness program. We are unaware of any contra-indications or any challenges associated with taking Vitality Fx Liquid Essential while on medications. Vitality Fx Liquid Essential is excellent for senior citizens and children, but again, we ask that you consult your health care professional.
